What does the strategy invest in?

This strategy will mostly invest in equities of Canadian large capitilization companies that produce stable, predictable cash flows and distributions. The mandate also allows for a very limited exposure to US equities. QV adheres to strict Socially Responsible Investing (RI) principles when it selects securities for this mandate..

How has the strategy performed?

Investment manager overview

QV Investors Inc. is a Calgary-based portfolio management firm, founded in 1996, that is focused on balanced, Canadian equity, and fixed income portfolios for individuals, not-for-profit organizations, and institutional investors. QV stands for Quality and Value. The firm was founded by Leighton F. Pullen and is 100% employee owned.

Investment philosophy

In managing equities, QV believes that an emphasis on risk analysis and realistic expectations for growth are imperative. They place a large weighting on the quality of management and buy companies that demonstrate proven records, focused strategies, competitive products and services and superior financial quality. They further believe that a keen eye to value disciplines their investing. Their depth of experience, independent research, and comparative and measured analysis provides the base for high quality growth over the long term.

Investment process and risk controls

The QV uses fundamental research to identify corporate management teams who are able to sustain or improve the return on shareholder's equity and to create growth on a per share basis. In their analysis, they examine the executives' ownership, their integrity and vision, the promise of the business in a global context, the record of growth in shareholder's equity, earnings, and dividends and the corporation's financial strength, and the price paid for growth and/or assets. Their research process is internal with all managers assigned specific responsibilities and engaged in the selection and evaluation process.

Analysts meet daily to review analysis, monitor holdings, and examine the changing market and corporate fundamentals. They employ an open office environment to promote continuous communication of corporate news and developments.

Risks are governed by portfolio management and the continuous measurement of the character of the total portfolio. Specifically, they monitor the portfolio's diversification and quantitative characteristics. These include measures of financial quality, value and growth ratios, and sector and industry weightings. All of these are compared against the appropriate benchmarks. Their selections and weightings are adjusted in accordance with the prospects for economic growth and the valuations placed on the markets and securities.

QV maintains return on equity and other characteristics of the portfolio equal to or better than the character of the market as a whole and consistent with their global outlook. Such measures allow them to compare potential additions of new investment opportunities and reduce risk in aggressive markets.

- One of Canada's largest independent wealth management firms
- Parent company of Aviso Wealth, NEI Investments, and Qtrade
- Owned by Canada's credit unions and Desjardins

[1] Dividend Focus: An Investing style that focuses on sustainable and growing dividend payouts

[2] Style represents the aggregate characteristics of the underlying holdings within this model. Market capitalization measures the aggregate market value of the outstanding shares of a company. Large-cap stocks are defined as the group that accounts for the top 70% of the capitalization of each geographic area; mid-cap stocks represent the next 20%; and small-cap stocks represent the balance.

[3] Duration measures the sensitivity of the fixed income investments to interest rate changes measured in years. In general, the longer the duration, the more sensitive the investment will be to interest rates changes. Credit quality measures the underlying issuer's ability to repay their debt.

The return data is as at December 31, 2025. Indicated rates of return are historical annual compounded total returns including reinvestment of all distributions for the period ended, and do not take into account management expenses, account sales, redemption, distribution or optional charges or income taxes payable by any security holder that would have reduced returns.

The information contained in this report was obtained from sources believed to be reliable; however, we cannot guarantee that it is accurate or complete. The Custom Managed Portfolios is distributed by Aviso Wealth Inc. Mutual funds and other securities are offered through Aviso Wealth Inc. Referral fees, commissions, management fees, and expenses all may be associated with managed accounts or the investments therein. Please read the prospectus before investing. Managed accounts, and the investments therein, are not insured nor guaranteed, their values change frequently and past performance may not be repeated.

[5] The benchmark is S&P/TSX Composite TR Index.

Aviso Wealth Inc. ('Aviso') is a wholly owned subsidiary of Aviso Wealth LP, which in turn is owned 50% by Desjardins Financial Holding Inc. and 50% by a limited partnership owned by the five Provincial Credit Union Centrals and The CUMIS Group Limited.
