Investment manager overview

Since 1967, Beutel Goodman has specialized in applying a value approach to the management of domestic and global equity, balanced and fixed income mandates for institutional and individual investors. Beutel Goodman operates as a private partnership through which 51% of the equity is owned by its operating principals. Affiliated Managers Group, Inc. (AMG), a publicly traded U.S. based asset management holding company, holds a minority 49% position. While Beutel Goodman's operating partners own 51% of the equity (in a voting trust), they have 100% operational autonomy and control of the firm.

Investment philosophy

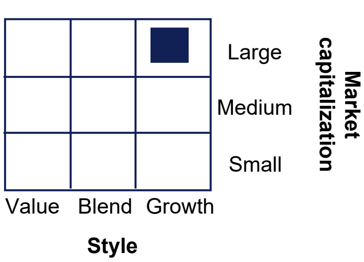
Beutel Goodman believes that successful bond investing requires a flexible policy and a multi-pronged approach to adding value. With respect to equity investing, Beutel views stocks as small pieces of businesses, and values companies based on their assessment of sustainable free cash flows. Beutel also believes that the relative bargains in stocks vs. bonds – measured by breadth and magnitude – can guide their asset mix decisions

Investment process and risk controls

This mandate's focus is to provide a stable income stream with modest growth potential. Toward this end, Beutel Goodman will invest primarily in a variety of investment grade bonds, supplemented by a smaller component of stocks that they view as growing companies that represent good value. This income-oriented balanced portfolio will have the following characteristics and constraints:

- Investment grade bonds will account for at least 60% of this portfolio but not more than 80%.
- Of this bond component, corporate bonds are restricted to a minimum of 15% and a maximum of 65%.
- No more than 15% of the bond component can be invested in bonds rated lower than "A".
- The duration of the bond component will be within one and a half years of the duration of the FTSE TMX Bond Universe.
- Equity securities will account for at least 20% of this portfolio but no more than 40%.
- The equity component will be invested in 20 to 32 holdings and will be spread among at least six S&P/MSCI GICS sectors.
- The equity component's maximum weight in any sector is limited to 15% if the sector is less than 5% of the blended benchmark or 15% plus the sector weight in the blended benchmark if greater than 5% benchmark if greater than 5%.

Equity style[2]



Fixed Income style[3]

- Owned by Canada's credit unions and Desjardins

[1] Income Balanced - Risk adjusted balanced strategy with a focus on steady cash-flow

[2] Style represents the aggregate characteristics of the underlying holdings within this model. Market capitalization measures the aggregate market value of the outstanding shares of a company. Large-cap stocks are defined as the group that accounts for the top 70% of the capitalization of each geographic area; mid-cap stocks represent the next 20%; and small-cap stocks represent the balance.

[3] Duration measures the sensitivity of the fixed income investments to interest rate changes measured in years. In general, the longer the duration, the more sensitive the investment will be to interest rates changes. Credit quality measures the underlying issuer's ability to repay their debt.

The return data is as at December 31, 2025 . Indicated rates of return are historical annual compounded total returns including reinvestment of all distributions for the period ended, and do not take into account management expenses, account sales, redemption, distribution or optional charges or income taxes payable by any security holder that would have reduced returns.

The information contained in this report was obtained from sources believed to be reliable; however, we cannot guarantee that it is accurate or complete. The Custom Managed Portfolios is distributed by Aviso Wealth Inc. Mutual funds and other securities are offered through Aviso Wealth Inc. Referral fees, commissions, management fees, and expenses all may be associated with managed accounts or the investments therein. Please read the prospectus before investing. Managed accounts, and the investments therein, are not insured nor guaranteed, their values change frequently and past performance may not be repeated.

[5] The benchmark is 70% FTSE Canada Universe Bond Index; 22.5% S&P/TSX Composite TR Index; 7.5% S&P 500 TR Index (CAD)

Aviso Wealth Inc. ('Aviso') is a wholly owned subsidiary of Aviso Wealth LP, which in turn is owned 50% by Desjardins Financial Holding Inc. and 50% by a limited partnership owned by the five Provincial Credit Union Centrals and The CUMIS Group Limited.
