

Brookfield Private Real Assets Fund (BPRAF)

Investment Overview

BPRAF is a single solution for Brookfield's private real estate and infrastructure capabilities focused on opportunistic and value-add / core-plus strategies.

Portfolio Updates

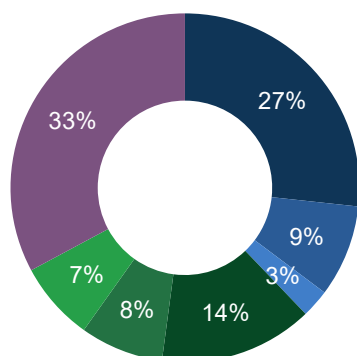

- **Private Opportunistic Real Estate** returns were mixed, with positive returns stemming from multi-family housing and negative returns from office, where post-pandemic headwinds continue to weigh on valuations.
- **Private Core-Plus Real Estate** property returns were mostly flat for the quarter. However, transaction costs from a logistics financing opportunity and a deferred tax adjustment pushed returns into negative territory.
- **Private Value-Add/Core-Plus Infrastructure** reported positive returns and demonstrated resilience amid tariff-related uncertainty, supported by stable cash flows, limited cross-border exposure, and strong execution fundamentals.
- **Private Real Estate Debt** continued to face challenges in U.S. office assets due to a lack of demand and prolonged workout negotiations, although the multifamily and industrial sectors showed signs of stabilization.
