GUARDIAN CAPITAL LP

Investment manager overview

Guardian was formed in 1962 and is one of Canada's longest-established, independent investment counselling firms. Over its 50-year history, Guardian has offered its investment management expertise in balanced fund management, equity management and fixed-income management to pension fund clients, institutions, operating and endowment funds, charitable organizations, mutual funds and high net worth individuals. Guardian Capital Inc. is wholly-owned by Guardian Capital Group Limited. The parent company's common and non-voting Class A shares are listed on the Toronto Stock Exchange

Investment philosophy

Guardian's Equity Income investment philosophy is built around four key tenants: 1) Focus on Income Generation - income generation is a key driver of our investment process, 2) Focus on Quality - we look for strong business franchises that generate high levels of stable free cash flows exhibiting long term growth potential that can support stable and growing dividends over time, 3) Focus on Risk Management – create risk-controlled portfolios through strict adherence to mandate guidelines and our disciplined investment process, and 4) Focus on Teamwork – a team based approach to portfolio management with clear accountability for decision making.

Investment process and risk controls

The Guardian's approach to Equity Income management is to invest in high yielding Canadian equity securities, including common stocks, REITs and similar equity securities that produce stable, predictable and growing dividends over the long-term. The Equity Income team uses a disciplined approach to portfolio management that blends rigorous fundamental bottom-up security analysis with a top-down overlay, which is implemented through a well-defined three step process:

- The initial phase in the process is to identify the investable universe by applying two screens to the S&P/TSX Composite Index. First, we look at the top 75% yielding securities within the S&P/TSX Composite Index. Then we screen out securities that fall below \$1 billion market capitalization.
- In the second step of the process, the portfolio managers conduct a preliminary analysis of the securities in the investable universe to screen for minimum quality characteristics such as management track record, corporate governance, industry dynamics, and balance sheet. Only companies that meet the minimum standards will move to the next stage of research where we perform a rigorous bottom-up fundamental analysis.
- In this final stage of the process, we bring together our fundamental bottom-up analysis, security valuation work, risk controls, and sell disciplines to construct and maintain the portfolio. In addition, we overlay our top-down view of the economy, commodity prices, interest rates, etc., that can have a material impact on the performance of certain sectors/securities. However, security selection remains the key driver in the portfolio construction process. The final portfolio is constructed within clearly defined constraints to ensure proper risk controls are being applied.

- One of Canada's largest independent wealth management firms
- Parent company of Aviso Wealth, NEI Investments, and Qtrade
- Owned by Canada's credit unions and Desjardins

¹ GARP (Growth at a reasonable price)

² Style represents the aggregate characteristics of the underlying holdings within this model. Market capitalization measures the aggregate market value of the outstanding shares of a company. Large-cap stocks are defined as the group that accounts for the top 70% of the capitalization of each geographic area; mid-cap stocks represent the next 20%; and small-cap stocks represent the balance.

³ Duration measures the sensitivity of the fixed income investments to interest rate changes measured in years. In general, the longer the duration, the more sensitive the investment will be to interest rates changes. Credit quality measures the underlying issuer's ability to repay their debt.

The return data is as at December 31, 2025. Indicated rates of return are historical annual compounded total returns including reinvestment of all distributions for the period ended, and do not take into account management expenses, account sales, redemption, distribution or optional charges or income taxes payable by any security holder that would have reduced returns.

The information contained in this report was obtained from sources believed to be reliable; however, we cannot guarantee that it is accurate or complete. The Custom Managed Portfolios is distributed by Aviso Wealth Inc. Mutual funds and other securities are offered through Aviso Wealth Inc. Referral fees, commissions, management fees, and expenses all may be associated with managed accounts or the investments therein. Please read the prospectus before investing. Managed accounts, and the investments therein, are not insured nor guaranteed, their values change frequently and past performance may not be repeated.

⁵ The benchmark is S&P/TSX High Dividend TR Index

Aviso Wealth Inc. ('Aviso') is a wholly owned subsidiary of Aviso Wealth LP, which in turn is owned 50% by Desjardins Financial Holding Inc. and 50% by a limited partnership owned by the five Provincial Credit Union Centrals and The CUMIS Group Limited.
